

Improve Patient Throughput and Optimize Profitability of Your OR

As operating rooms (ORs) work to optimize patient throughput while controlling expenses, health systems, hospitals and ASCs can't afford to let equipment availability or staffing shortages become limiting factors. Agiliti delivers comprehensive surgical services that efficiently mobilize highly-trained technicians to improve the workflows surrounding the accessibility, management and service of surgical equipment. Our solutions help improve your OR efficiency, deliver high-quality care to more patients, optimize revenue and realize sustained cost savings.

PORTFOLIO OF SERVICES

Surgical Equipment Maintenance and Repair Services

National and local surgical repair capabilities accelerate turnaround time, prevent premature inventory replacement and extend equipment life across the full suite of equipment in the OR.

- Flexible and Rigid Endoscopes
- Cameras and Video Tower Components
- Anesthesia
- Surgical Power Tools
- Automated Endoscope Reprocessors (AERs)
- Surgical Instrumentation
- C-Arms
- Surgical Lasers
- Operating Tables
- Surgical Booms
- Surgical Lights
- Sterilizers/Autoclaves
- Insufflators
- General Biomed Equipment
- Surgical Asset Laser Marking

Surgical Laser and Equipment Rental and Technician-Only Services

Per-case access to best-in-class surgical equipment rentals and experienced technicians to minimize case delays, improve throughput and reduce OR costs.

- Urology
- ENT
- Gynecology
- Aesthetic Surgery
- Gastroenterology
- Minimally Invasive IR
- Ophthalmology
- Pulmonology
- Cardiac Surgery
- General Surgery
- Neurosurgery
- Orthopedics Surgery
- Oncology
- Podiatry
- Vascular

MAXIMIZE PROFITABILITY

Improve throughput, reduce delays, unlock cost savings and ensure compliance with cutting-edge surgical technology and trained technicians

STANDARDIZE VENDORS & WORKFLOWS

Lower total cost of ownership by leveraging economies of scale and streamlining the operation, management and service of your surgical technology

REDUCE BURDEN ON OR STAFF

Ensure optimal operation of surgical lasers, equipment and instrumentation while reducing compliance risks for OR staff

MINIMIZE PATIENT RISK

Adherence to the highest quality and regulatory standards for laser and patient safety ensures optimal outcomes across your OR operations
