Manage, Track and Analyze Equipment Rental and Repair Services

Patient care is challenging—managing patient equipment should be easy. The re-imagined MyAgiliti 2.0 offers a suite of new and enhanced capabilities to help ease staff burdens.

RENTAL

Quickly order equipment from your facility's custom rental catalog. Replacement and pickup requests are even easier from the mobile app's bar code scanner.

EQUIPMENT STATUS

Stay up to date with the easy-to-use equipment order status bar. Whether ordering rental equipment or requesting repair services, MyAgiliti 2.0 keeps you informed on the status of your request.
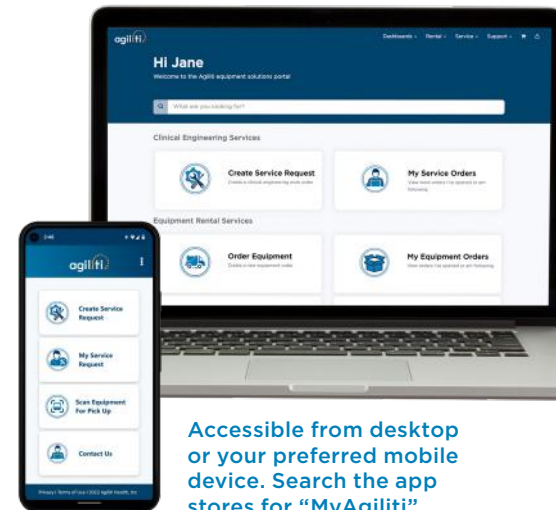

SERVICE

Request repair services on contracted, hospital-owned equipment. Enter the asset number or scan the bar code with the app. Add a brief description of requested service and you're done.

REPORTING

View and export up-to-date reporting on several key metrics to help ease your compliance and reporting efforts. Check the status of repairs within your facility, PM completion rates and more.

Key Features	Rental	Service
Manage equipment rentals and service	✓	✓
Order tracking with visual status	✓	✓
Customized equipment catalog/inventory	✓	✓
Mobile application to help speed workflows	✓	✓
Scan equipment barcode for pickup/service (app)	✓	✓

About Agiliti

Working side-by-side with clinicians, supply chain teams and clinical engineers in more than 9,000 locations gives us a unique perspective on medical equipment management. We believe optimizing patient outcomes and driving meaningful operational savings requires an end-to-end approach. So, we offer solutions that connect departments, fix fragmented processes and free healthcare professionals to focus on what they do best — providing exceptional care and best-in-class patient experiences.
