

Infection Control and Prevention with Hercules™

Reduce patient room traffic and the risk of infectious disease transmission. Hercules and Air Hercules Patient Repositioners™ help a single caregiver reposition a patient weighing up to 750 lbs.—keeping unnecessary staff away from patients with contact precautions.

- Eliminate lift teams
- Reduce transmission risk
- Improve caregiver safety

	Patient Weight		
	<200 lbs.	200-350 lbs.	350+ lbs.
Caregivers needed for manual repositioning*	2	4	6
Repositionings per day**	11	11	11
Daily room traffic for manual repositioning	22	44	66
Daily room traffic with Hercules repositioning	11	11	11
Reduction in daily room traffic	11	33	55
Reduction in staff and PPE	50%	75%	83%

*Low estimate: NIOSH recommends one caregiver per 35 lbs. of patient weight

**Based on data gathered during customer trials
