# **Sapphire Pulse**<sup>™</sup>

Low Air Loss Pulsation Therapy

Sapphire Pulse<sup>™</sup> features pulsation and static low air loss therapy modes for pressure injury prevention. Pulsating cycle times can be adjusted from 3 to 20 minutes. Sapphire Pulse's high-strength air cells rest on a foam safety pad for patient protection during transfers, and the top cover is vapor-permeable and machine-washable.

- Pulsation and Static therapy modes
- Cycle times adjustable from 3 to 20 min.
- Vapor-permeable, machine-washable top cover
- Fowler feature increases airflow when head of bed is elevated
