

Surgical Tech Talent to Solve Staffing Challenges & Prevent Costly Surgical Case Delays

Surging OR Volumes Colliding with a Growing Staffing Crisis

The difficulty and cost of recruiting full-time surgical staff keeps growing. Hiring temporary workers or traveling nurses comes with sky-high costs. ORs are trying to patch together coverage, pulling resources from other departments and asking staff to take on more responsibilities. Unfortunately, this band-aid approach only adds to the burnout and turnover problem by asking untrained, non-certified staff members to operate complex surgical technology. Not only does this practice increase compliance risk to those team members, but it increases the risk of case delays and patient safety issues.

Surgical Technician Services from Agiliti

Agiliti helps solve the OR staffing challenge by providing hospitals with flexible, nationwide access to highly experienced and certified surgical technicians — when and where they're needed.

- Flexible and scalable staffing options
- Pay for only the service you need
- Utilize your device (no rental required)
- Online case scheduling
- ANSI-compliant

Experienced and dedicated Agiliti technicians integrate seamlessly with your OR staff and are ready to fully support your surgical procedures — from setup to teardown to case documentation.

- 1) Setup & Teardown:** Agiliti technicians properly set up surgical equipment in patient-ready condition — and carefully disassemble following use.
- 2) Test-Firing & Calibration:** Agiliti technicians calibrate surgical lasers and other devices for reliable, precise and safe function.
- 3) Device Operation During Procedure:** Agiliti technicians support the safe operation of your laser or other surgical device during the procedure. Our technicians are trained, certified and experienced with the most advanced surgical devices and the latest surgical techniques.
- 4) Troubleshooting:** Should an issue arise, our technicians have the deep technical knowledge and expertise to quickly and effectively troubleshoot to minimize case delays.
- 5) Laser Log Documentation:** Our certified laser technicians complete all necessary documentation to meet ANSI compliance requirements.

Technical Staffing for a Wide Variety of Specialties

Agiliti provides surgical technicians that are trained, certified and highly experienced in a variety of specialties, including:

- Urology
- ENT
- Gynecology
- Aesthetic Surgery
- Gastroenterology
- Minimally Invasive IR
