

Improve Time to Therapy and Nurse Productivity

Right Bed, Right Place, Right Time

Providing every patient with the right bed or therapy surface impacts both quality of care and patient satisfaction. But staffing shortages and a lack of standardized processes can make bed and surface management a time-consuming, costly problem. Reduce costs and free your staff to focus on their patients, not hospital beds. Our end-to-end program covers the full process of mobilizing beds - from ordering, delivery, tracking, storage and pick-up to cleaning and even repair services.

DRIVING MEASURABLE IMPROVEMENTS

IMPROVE
BED MOBILIZATION

INCREASE CLINICIAN
TIME AT BEDSIDE

REDUCE
TOTAL COST OF
OWNERSHIP

ONSITE BED PROGRAM

Our program implements one centralized process to better mobilize beds throughout your organization, operated by a team of equipment experts who will work side-by-side with your nurses and staff to provide responsive equipment support. We establish a dedicated workspace to clean, store and service your beds and surfaces, provide access to key equipment performance metrics, and leverage our nationwide logistics network to support outlying facilities and clinics.

Annual Mattress Inspection, Including Repair/Replacement Recommendations		X
24/7 Coverage	Optional	Optional
Stretcher Management	Optional	Optional

One Element of a Broader Solution

Our Onsite Bed Program unburdens staff and reduces time to therapy – but these services alone don’t fully address equipment utilization, service cost reduction or staff productivity. We’ve developed an approach called Equipment Value Management (EVM) that connects these areas and multiplies your savings.
